

Maintenance

Preventive & Curative

SEMECA draws on over 15 years of experience and a team made up of more than 70 mechanics, boilermakers and fitters specialising in industrial maintenance. We provide preventive and curative maintenance as well as industrial installation audits

- ◆ We can provide **repairs** or come on-site for **planned shutdowns** for clients working in mechanics, boiler works and piping.

SEMECA's maintenance team can call upon the services of the group's workshops if necessary.

► Our unique selling points

- Significant experience in industrial maintenance, in particular for incineration plants
- General services
- Flexible, readily available and proactive
- Direct relationship with the client
- Geographical proximity

>> Our clients

We work with various sectors: **environment, automotive, paper, chemicals, etc.**

Our resources

Our team

- Mechanics
- Pipe fitters
- Boilermakers
- Welders
- Fitters

Every member of our team is equipped with a range of tools according to his/her area of expertise, as well as general tools: welding stations, handling equipment, etc.

SEMECA can provide the services it offers thanks to the synergy between the different subsidiaries of the group.
