

Sheet metal work

Hardware – Paint work

◆ A range of finished products

We produce systems with a wide range of dimensions, both in terms of “Maintenance” and “New work”.

- Mechanically welded systems
- Conveyors, casing, metallic frameworks
- Tools and tool frames
- Storage products (vats, chests, etc.)
- Machined parts

◆ Specific products

- Battery containers
- Doors and accessories for EDF “ARBEL” transformers
- Airflow equipment (ducts, bends, regulators, etc.)
- Various accessories

◆ Clean products

- Cyclone dust collectors
- Filtration dust collectors
 - Static dust collectors
 - Declogging dust collectors

▶ Our unique selling points

- Speed
- Proactivity
- All kinds of equipment
- All thicknesses
- Cleanroom (stainless steel)

>> Our clients

The range of applications is vast. **The food, chemistry and environment industries** are our main areas of activity.

Our resources

Our machinery

- Press
 - folding press, 150 and 300 t, varying width, from 4,000 to 5,000 mm
 - horizontal press, 300 t
 - AMADA® folding press, 5 axes, 220 t, 4 m
- Boring (hardware)
 - column boring machines, etc.
- Cutting
 - high definition plasma cutting (12 x 4 m table), max thickness 20 mm for stainless steel, 12 mm for steel and 6 mm for aluminium
 - cutting templates stored electronically
 - traditional cutting:
 - LVD shearing machines (3 m) and shearing machines for thicknesses of 20 mm and widths of 4,000 mm
 - saws, mitre saw, MISSLER saw, etc.
- Welding
 - semi-automatic welding stations including 2 TIG MIG for steel and aluminium
- Painting
 - sterilised painting room, 22 x 4 x 4 m
 - two 8 x 4 x 4 m painting rooms
 - laminating process providing anti-corrosion protection with a pre-heating tunnel and fluidised bed for lamination

Our team

SEMECA has several teams of welders, boilermakers and cutting operators.
