

# Traditional

## machining

With a fleet of traditional machines that have been brought right up to date, we can produce a whole range of small and medium-volume parts for you. Our turning, milling, boring and slotting services will be put to use for whatever purposes you need.

### **Production of unit parts, repairs or small-volume manufacturing**

Traditional machining is particularly useful for creating unit parts, and can also be useful for repairs or small-volume production.

### **Our unique selling points**

- Proactivity and flexibility
- Expertise and experience
- Qualifications and skills
- Several sites across the Nord Pas-de-Calais region
- Control
- A fleet of non-standard machines

### **>> Our clients**

The scope of traditional machining covers all areas of industry.

# Our resources
